PROFILE

MCA student specializing in data analysis and visualization, with hands-on experience turning raw datasets into actionable insights using SQL, Python, and Power BI. Built multiple end-to-end dashboards covering sales, HR, and EV adoption trends. Strong foundation in data structures and a quick learner comfortable picking up new tools and domains.

EDUCATION

Vivekananda Institute of Professional Studies <i>Master of Computer Applications (MCA), G.G.S.I.P.U.</i>	Delhi, India 2024 – 2026
Pt. Deen Dayal Upadhyay Management College <i>Bachelor of Computer Applications (BCA), C.C.S.U.</i>	Meerut, India 2021 – 2024

EXPERIENCE

Nett4U <i>Intern</i>	1 Month India
Assisted in content research and drafting to support company publishing requirements.	

PROJECTS

Electric Vehicle Analysis <i>Python, SQL, Tableau</i>	
- Used Python (Pandas) to clean and prepare public EV adoption datasets for analysis. - Built an interactive Power BI dashboard analyzing EV adoption trends across vehicle categories and regions.	
HR Analytics Dashboard <i>Python, SQL, Power BI</i>	
- Used Python (Pandas) to clean and structure HR data prior to building the dashboard. - Built DAX measures and filters enabling HR stakeholders to compare attrition rates across departments and tenure bands.	
Sales Performance Analysis <i>Python, SQL, Power BI</i>	
- Wrote SQL queries to extract and aggregate sales data across products, regions, and time periods to identify revenue trends. - Used Python (Pandas) to clean and pre-process sales data before analysis.	
InsightsIQ: Data Analytics and Prediction Platform <i>Python, Machine Learning, Streamlit, SQL</i>	
- Developed a comprehensive analytics platform that performs data preprocessing, visualization, and predictive modeling on business datasets. - Implemented and compared multiple machine learning algorithms including Linear Regression, Random Forest, Decision Tree, KNN, and XGBoost. - Generated automated insights, model performance reports, and interactive dashboards to support data-driven decision making.	

TECHNICAL SKILLS

Languages: Python, Java, C#
Tools & Platforms: MySQL, Unity (AR/VR), Power BI
Core Areas: Data Structures, 3D Modeling, Animation

SOFT SKILLS

Problem Solving Logical Thinking Team Collaboration

PERSONAL DETAILS

Date of Birth: 23-09-2003
